PROFILE

Lead Software Developer with 8+ years of experience specializing in SAP Business One, C#/.NET, Service Layer integrations, and enterprise application development. Experienced in designing SAP B1 add-ons, web and mobile applications, API integrations, workflow automation, and custom business solutions across finance, sales, HR, and operations. Also experienced in developing and delivering non-SAP projects, including standalone web, desktop, mobile, and business applications tailored to specific client and organizational requirements. Proven ability to lead development initiatives and deliver scalable solutions using .NET Core, React, SQL Server, SAP HANA, Azure, and AWS.

EXPERIENCE

LEAD SOFTWARE DEVELOPER – R&D 2024 – Present
Xceler8 Technologies Inc. | Makati, Metro Manila, Philippines

- Led R&D on eSweldo V3, rebuilding Xceler8’s in-house payroll and HR system as a multi-tenant SaaS web app (React, .NET Core, C#) with a new Recruitment module and AI applicant analysis.
- Built the JAEIA Workflow Designer, an n8n-inspired, node-based WPF tool with a Roslyn C# scripting engine that speeds up delivery of simpler integrations, for SAP Business One and other systems.
- Lead developer of Turks One Portal, a React and .NET Core ordering and Daily Sales Report platform that posts approved store requests to SAP Business One through the Service Layer.

SOFTWARE DEVELOPER (REMOTE) 2023 – 2024
SABRE Information Service Pte. Ltd. | Queenstown, Singapore

- Maintained, enhanced, and updated legacy applications to ensure functionality, stability, and compatibility with evolving business requirements.
- Analyzed reported issues, identified root causes, and implemented appropriate fixes and improvements.

SAP BUSINESS ONE SENIOR TECHNICAL DEVELOPER 2021 – 2023
Xceler8 Technologies Inc. | Makati, Metro Manila, Philippines

- Proposed and built SAP Business One Service Layer solutions for Xceler8 clients, delivered as Windows apps, web portals or mobile apps to fit each client’s processes.
- Developed and project-managed an online ordering web portal (ASP.NET Core, SQL Server) and Flutter mobile app that create SAP Business One Sales Orders for agents across the Philippines, saving the SAP Business One licenses otherwise needed for order entry.

SAP BUSINESS ONE TECHNICAL DEVELOPER 2018 – 2021
Xceler8 Technologies Inc. | Makati, Metro Manila, Philippines

- Maintained and extended Xceler8’s Philippine Tax Module add-on for SAP Business One, adding licensing features, new BIR reports and centralized report sourcing; still used by most Xceler8 clients.
- Developed Crystal Reports on BIR-mandated form layouts (e.g., Forms 1601-EQ and 2550M), printed directly from SAP Business One.
